An Express Scripts Company

Introduction

This guide provides information on some of the most commonly prescribed medications in workers' compensation. The list includes medications for which a generic equivalent is available and is arranged alphabetically by brand name. Listed with each medication is the brand name and the generic equivalent.

Some products may no longer be available as a result of discontinuations, and some new products may have been added after this guide was published.

This guide is not intended and should not be used or relied upon for the purposes of prescribing or using a product. It is solely for reference purposes. For possible alternatives to commonly prescribed high-cost medications, please see our companion Prior Authorization and High Dollar Rejections Guide. The trademarks and other product names listed in this guide are the property of their respective companies.
